**Introduction of Sterile, Single-use, Frazier and Baron
Suction Tubes**

+

**Masco, Inc is proud to announce our new distributor relationship
with CWI - BR Surgical, LLC**

-- Introduction of Sterile, Single-use, Frazier and Baron Suction Tubes --

"BR Surgical is a market leader in providing surgical instruments and endoscopic equipment through our distributor partners for office-based and ambulatory surgery center surgical procedures. BR Surgical understands surgery. Our management has over 75 years of expertise in the surgical device business. We and our staff understand surgical procedures and the product needs to complete a successful procedure. We offer the highest quality surgical instruments and equipment available. Combined with our friendly customer service, we provide the Gold Standard in customer and patient care."

**BR Surgical
Cunningham Woodland**

BR Surgical and Cunningham Woodland are proud to announce the new line of sterile, single-use, Frazier and Baron suction tubes.

The products are available in a complete range of French sizes (3-11) as well as traditional lengths (80mm & 110mm).

The disposable Teardrop suction tubes are also available in a complete range of lengths (4" 4 1/2" , 5" , 5 1/2" & 6 1/2") and French sizes (3fr-9fr) to accommodate most procedures.

The breadth of the line is important as you do not want the surgeon limited in the selection of the lumen size or length.

ELIMINATE CROSS-CONTAMINATION FROM SUCTION TUBES

BR Surgical Disposable Suction Tubes
Reduce the Risk of Infection

Eliminates cost and difficulty associated with cleaning and maintenance of small lumens.

Avoid Cross – Contamination and Improve Suction Performance

When processing reusable suction tubes there is the potential for blood and organic debris to clog or block the lumen.

Frazier and Baron design like the reusable

Physician doesn't need to change technique during procedures.

Reduce Risk of Infection

Contaminated tubes create the potential for infection in new patients.

Full Breadth of Line

Physician not limited in lumens size or length.

Save Time and Money

Eliminates cost and difficulty associated with cleaning maintenance and repair of small lumen tubes.

Baron type tubes available with tear drop design

Teardrop shaped thumb valve for precise suction regulation from gentle to strong.
